September 27, 2001

Secretary of Energy Spencer Abraham
1000 Independence Ave SW
Forrestal Bldg 7A-257
Washington, DC 20585

Secretary Abraham:

A decision on Yucca Mountain must be based on sound science. DOE has spent the better part of two decades and \$7 Billion studying Yucca Mountain. These studies have yielded the scientific information necessary for a decision to be made this year.

DOE must keep on schedule to ensure timely movement of used fuel from nuclear facilities around the country.

I urge you to make used nuclear fuel disposal one of your highest priorities.

Sincerely,

Leslie Barbour
